WHAT WE DO

The Office of Research Integrity and Compliance (ORIC) provides leadership and guidance to the university community regarding the responsible conduct of research. We monitor compliance with applicable federal, state, and institutional regulations by developing tools and educational resources to help guide the ECU community through the process of transparency, compliance, and oversight. Specifically, we:

- Perform RCR training sessions for undergraduate students and Masters level students
- Host a series of presentations on RCR topics for postdoctoral scholars
- Work with campus groups and organizations to promote responsible, ethical decision making in research
- Offer departmental and division support in understanding the responsible conduct of research

For more information, visit the ORIC website at https://rede.ecu.edu/oric/
